# What makes us so good and how we do it, make us so good.

f

## Quality of Care

Our patient-centered standards are an organization's ability to provide evidence-based, clinically safe, functional and specific interventions, and to continuously improve care delivery.

Focus areas: Care, Team and Service, Engagement of Care, Medication Management, Performance Improvement, Record of Care, Rights of the Individual

## Competent Staff

In addition to identifying staff qualification processes, our standards incorporate effective guidelines to encourage staff engagement and empowerment to increase staff satisfaction and education.

Focus areas: Human Resources, Information Management, Leadership

## Safety Measures

Safety preparedness is a key component of our standards offering guidance to help organizations keep staff and individual safe, avoid adverse events, and prepare for and manage emergencies.

Focus areas: Emergency Management, Infection Prevention and Control, Life Safety, National Patient Safety Goal

## Reputation

Dedication in quality.

Achieving accreditation is a visible demonstration of our commitment, staff and individual efforts. Our organization has gone above and beyond to deliver and continuously improve the care we provide. A powerful tool to make differentiation and collaborative partnership.
