

A Level of Care That Sets You Apart

Demonstrate a dedication in commitment to the highest standard of performance and safety in total hip and knee replacement

Aligning Performance with Preference

As the volume of orthopedic surgeries increases in the next decade, so too does your competition. Joint Commission

Replacement helps elevate your services with the evidence-based proof of clinical quality sought by patients and payors alike.

84% increase in hip and knee replacement volume in the next decade.¹

Make the difference

Today's connected marketplace means outcome measures and standards are easily available to payors, employers and patients. Through measurable data, you can showcase a higher level of care, adding patients through pre-authorizations, narrow networks and other incentives.

and Knee Replacement helps you deliver the evidence-based proof of quality to prominent payors who currently or will proof of performance.

Our team works closely with you to benchmark progress and achieve the tangible results that demonstrate you meet the complete set of best practice criteria across the most touchpoints of care.

Adapted approach

Rigorous, peer-reviewed guidelines and standardized performance measures developed by The Joint Commission help to eliminate 'rule-of-thumb' program elements that do not have evidentiary outcomes.

Our clear focus on applying evidence-based standards uniformly and consistently leads to measurable outcomes, streamlined processes and greater patient safety.
